

## CHEST OF DRAWERS ASSEMBLY INSTRUCTIONS

**STEP 1:** Take all parts out of the cartons, as well as the plastic bags with the screws. Use the drawings to help you assemble the Chest of drawers.

**STEP 2:** Lay the Chest of drawers (**part 1**) back-side down. Remove the bottom two drawers. Put the feet (**partS 8-9-10-11**) into the appropriate holes on the outer bottom of the Chest of drawers. Fasten the feet using the “H” screws from the inner bottom surface of the Chest of drawers. Put the drawers back in place and turn the Chest of drawers (**part 1**) in an upright position.

**STEP 3:** Use the “I” screws to fasten the knobs on the drawers.

**STEP 4:** Fasten “A” screws into the holes on top of the Chest of drawers (**part 1**).

**STEP 5:** Put the “C” dowels into the appropriate holes on the bottom of **parts 2-3-4-6-7**, as shown on the drawing.

**STEP 6:** Fasten the “B” screws into **parts 3-4**. Assemble **parts 2-3-4** together and place them onto the chest of drawers (**part 1**). Tighten turning the cams, located at the rear of the **part 2** and the inner surface of **parts 3-4**, clockwise (**detail I**).

**STEP 7:** Assemble together **parts 5-6-7** fastening the “E” screws into **part 5**. (Make sure that the “D” roll nut screwdriver slot is parallel to the “E” screw screwdriver slot). Put the assembled **parts 5-6-7** in the front side of **parts 3-4** and fasten them using the “F”(female) and “G”(male) screws.

**STEP 8\*:** Fasten the “M” iron strips on the back of the chest of drawers, using “J” screws. Put the chest of drawers against the wall, in your desired place. Use the “M” iron strips as a guide and drill the wall with 8mm drill. Insert the “K” wall plugs into the holes. Secure the chest of drawers on the wall by fastening the “M” iron strips using the “L” screws.

### NOTES:

\*: **Securing the chest of drawers on the wall is required for the safety standards to apply!**

- The screws should be securely fastened. Neither too loose, nor too tight.
- Maximum load weight for each drawer 5kg.
- Do not leave the drawers open after using them.
- Keep the chest of drawers away from any heating source or fire.

### MATERIALS:

- Beech Wood
- MDF
- Veneer
- Chipboard with plastic coating (drawers)
